## **Textbooks, Instructional Materials and Media Centers**

**IF**

(See IKD and KN)

All textbooks, instructional materials and the selection criteria for district media center materials shall be subject to board approval.

Textbooks and instructional materials shall support the district's instructional program. Media center materials shall support and supplement the curriculum, promote wise use of leisure time, develop literary discrimination and appreciation, and encourage students to become productive citizens.

### Selection Criteria: Textbooks and Instructional Materials

Textbooks and instructional materials shall provide:

An effective education for all students;

Factual knowledge, literary appreciation, aesthetic values, and ethical standards;

Practice for students to develop abilities in critical thinking, communication, mathematics, and science skill;

Information which helps students develop an appreciation of American cultural, ethnic and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and

Sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria, which shall include a review of available material by appropriate staff members.

### Selection Criteria: Media Center Materials

Materials shall be chosen for accuracy, artistic quality, format, and authoritativeness.

Materials shall be chosen on various reading levels presenting different points of view, including current issues.

Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.

The media center(s) shall obtain, process, and circulate materials and equipment and provide references and other services to students and faculty. Media specialists shall work toward providing resources so that students have an opportunity to achieve high levels of performance.

### Collection Development

The media collection shall be developed systematically, be well balanced in coverage of subjects, and include various types of materials and a variety of content in multiple formats.

The collection shall reflect, enhance, and complement the broad interests represented in the curriculum. The collection should be large enough to allow materials to be placed in classrooms for extended periods of time.

### Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district having a complaint about textbooks, media center, or other instructional materials shall meet with the teacher, media specialist, or principal. If the concern is addressed to a teacher or media specialist, they shall report the matter to the principal. If the matter cannot be resolved, the principal shall notify the superintendent and ask the complainant to complete a request for review form which is available through building principals or at the district office. After receiving the completed form, the superintendent shall review and consider the request.

If the issue outlined in the request is not resolved after review by the superintendent, the requestor may seek review by the board. If the board chooses to consider the request, it may forward all appropriate written materials to a review committee.

### Composition of Review Committee

When a review committee is established by the board to handle requests for review concerning textbooks, media center, or instructional materials, the review committee shall be composed of:

The building principal, library media specialist, two subject area specialists, two community members. The superintendent shall be responsible for appointing review committee members unless otherwise determined by the board on a case-by-case basis.

### Written Report

Within 30 days of receiving access to the challenged materials, the review committee shall review the material and prepare a written report containing conclusions and recommendations for the board of education;

If the board receives simultaneous challenges of multiple material or if circumstances render the 30-day timeline impracticable, the board may extend the committee's deadline to complete its review.

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

### Board Review and Action

The board shall review the recommendation of the review committee within 30 days of receipt thereof or at the next board meeting and may accept the review committee's recommendation, reject the review committee's recommendation, or make its own determination regarding the challenged book or material.

The decision of the board is final.

### Removing Challenged Materials

Challenged materials may be removed from use during the review period.

### Impact of Simultaneous Requests

If more than one request for review is received simultaneously, or, if one or more requests for review is received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received on the same book or material, such requests may be consolidated to reduce redundancy in review at any stage of this process.

Approved: August 8, 2022

Classrooms are not public forums for the display or distribution of political, religious, or personal viewpoints. Employees may not use classrooms for the posting or display of materials to promote, advocate, or convey a political, religious, or personal message.

This policy does not require a principal to remove photos, decorations, or other personal items from a teacher's desk or surrounding area as long as the items do not violate board policy or disrupt the learning process.

## **Performance-Based Credits**

**IIA**

A student may earn credits towards high school graduation by demonstrating mastery of the course outcomes through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to those offered in the framework of the Carnegie unit.

A written request to “test out” of a class must be submitted prior to the beginning of each semester/year. A student may not request to “test out” of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal, and the students’ parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. A performance instrument shall be approved by the principal. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed.

Credit for such classes shall be awarded only on a pass/fail basis. Students will be allowed only one opportunity to “test out” of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

### Graduation Credit Through Integrated Coursework

The board may allow graduation credit for integrated academic or career and technical education course work. The teacher awarding academic credit shall be fully licensed and may work collaboratively with another instructor to develop a course plan for instruction. The teacher shall monitor the student's progress and level of achievement. The plan will be reviewed periodically to maintain rigor and relevance.

### Credit Through Alternative Educational Opportunities

Students enrolled in grades six through twelve may earn course credits through alternative educational opportunities with sponsoring entities. For the purposes of this policy, terms have the following meanings.

- “Alternative educational opportunity” means instruction that primarily occurs outside the classroom with a sponsoring entity.
- “Sponsoring entity” means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

#### Eligibility Requirements for Sponsoring Entities

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

#### Requirements for the Provision of Alternative Educational Opportunities

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student’s progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

#### Processes for Submitting a Proposal for an Additional Educational Opportunity

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students, shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience; educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

#### Criteria for Evaluating Such Proposals

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board approved curriculum and goals, consulting other

staff members as necessary in that process. Before recommending action to continue such partnership from year-to-year, the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in this policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to: whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; related costs for the district, regarding the provision of transportation, equipment, human resources to monitor the experience, etc.; space and time constraints if the experience will be provided in district facilities; student and staff safety; the need for and/or availability of insurance coverage, as applicable; effect on other district course offerings and activities; and student interest. As the welfare of students is of paramount importance to the board, the district reserves the right to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

#### Determining the Course Credit that May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board approved curriculum. The superintendent may award credit for the experience as deemed appropriate for district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory, regulatory, and Kansas State Board of Education approved standards for award of such credit.

#### State Reporting Requirements

The superintendent or the superintendent's designee shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities offered at each school, the names of sponsoring entities, the number of students participating in such opportunities, and credits earned.

**IKDA Religious Objections to Activities (See IKD)**

**IKDA**

A parent or guardian (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, guardian, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

This policy shall not be interpreted to allow parents to prevent the dissemination of information which parents find religiously objectionable. Rather, this policy only extends to actual participation by their child in an activity, the performance of which is contrary to the child's religious teachings.

A parent or guardian seeking to opt-out their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the board office. Parents desiring to opt-out their children from activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file with the principal and the superintendent shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents of the decision within a reasonable amount of time after the request is submitted.

If the parents are dissatisfied with the principal's decision, they may appeal in writing to the superintendent.

**IKDA Religious Objections to Activities**
